

## Grease separator EasyClean free NS 2, Mix

## **Article information**

Item no.: 93002.01/DS GTIN: 4026092060766 Price group: 60

## **Advantages**

- Direction of flow can be changed thanks to selfsealing interchangeable hubs (NS 2- NS 10)
- Simple control
- Low-maintenance operation

## Description

Voriont

The separator for greasy wastewater is suitable for free-standing set-up in frostprotected rooms and comes without metallic components in the tank. The collecting tank made of permanently resistant polymer (PE) is equipped with an integrated sludge trap and has a tapered base for fast and clean disposal. Two odour-tight covers with quick-release closures make easy access possible for cleaning and maintenance work. The innovative Shredder-Mix-System with integrated macerating system is responsible for homogenising and circulating the tank contents. Cleaning is carried out by an exterior pump which can be disconnected from the tank by a shut-off valve. After disposal, a maximum of 3 litres residual sludge volume is left in the tank. A direct disposal pipe socket is available for odour-neutral manual disposal. 20 year polyethylene warranty.

| variant                                   |                            |
