

Pumping station *Aqualift F XL*

The powerful version for commercial, industrial and communal applications.

For the highest demands: the *Aqualift F XL* can cope with large quantities of wastewater containing sewage and is therefore suitable not only for typical residential buildings but also particularly for commercial and industrial use. The pumping station has been designed as a modular system and can be combined with the appropriate KESSEL chamber system.

The *Aqualift F XL* is available as a Mono or Duo system with pumps in different capacity classes. A wide selection of upper sections and covers ensure that the pumping station can be installed flexibly at different installation locations.

Flexible installation

Thanks to the modular design with a large selection of chamber modules and upper sections, the pumping station can be installed both in the ground and in a floor slab. The systems are groundwater-resistant to a depth of 3.000 mm.

If you want to use the *Aqualift F XL* inside the building:
