

Channel drains and square channel drains

Express version

On request, we supply the *Ferrofix* as a ready-to-install complete linear and square channel with pre-assembled outlet sockets, slip-resistant gratings and channel profiles with adhesive flange for shallow bed waterproofing layers. The Express versions are combined with the matching drain bodies *Ferrofix*, *Ecoguss* or *Practicus* as well as optional accessories.

With our modular systems 100, 125 and 200, we provide numerous possible combinations for our channel drains and square channel drains.
