

Backwater valve Staufix DN 150, exposed, Type 2

Article information

Item no.: 730150 GTIN: 4026092076477 Price group: 10

Advantages

- Optional rat protection flap for additional safety
- Flexible installation, various covers available for floor slab installation
- Alternatively available as a module set

Description

The backwater valve for wastewater without sewage is equipped with two mechanical flaps which close automatically in the event of backwater. One flap serves as an emergency closure to be closed by hand. Thanks to the modular KESSEL system, existing systems can easily be converted to the StaufixControl backwater valve.

Variant Stainless steel flap as rat protection: Emergency closure: Mechanical backwater flaps:	no yes 2
General characteristics Colour: Standard: Nominal size (DN): Outer diameter (OD): Type of wastewater: Installation situation: Delivery state: Backwater protection:	black EN 13564 150 160 mm without sewage exposed drainage pipe installation-ready Type 2
