

Lifting stati. Aqualift F XL 300l Duo, SPF 1400-S1, Backflow preventer

Article information

Item no.: 11092 GTIN: 4026092057599 Price group: 50

Advantages

- Different performance classes available
- Pressure sensor for reliable pneumatic level measurement
- Maximum operating reliability due to intelligent control unit (Duo)

Description

The lifting station for faecal and faecal-free wastewater is equipped with one or two submersible pumps and a backflow preventer. The collection tank made of permanently resistant polymer (PE) offers universal connection options and has a screwed access cover.

Variant Type of system: Shut-off valve: Backwater protection: Pressure pipe connection:	duo pump without shut-off valve integrated vertical
General characteristics Colour: Standard: Type of wastewater: Installation situation: System type:	black EN 12050-1 with sewage free-standing installation Duo
Dimensions Net weight: Gross weight: Packaging dimension: Packaging dimension: Packaging dimension:	184,57 kg 204,57 kg length width height
Tank/drain body Tank volume:	300 l

Pumping device Pump control: Number of pumps: Length of mains cable for pump: Operating mode: Impeller type: Free passage:

Control Control unit: Level measurement instrument: Type of level measurement: Mains frequency: Operating voltage: SPF 1400 2 5 m S1 Multi-vane impeller 40 mm

Comfort Immersion pipe pneumatic 50 Hz 230 V
