

# Technology kit Aqualift S Compact GTF1200 Mono Tronic

## **Article information**

Item no.: 281250-TK GTIN: 4026092108000 Price group: 20

## Description

For combination with a KESSEL shell kit for creating a Mono lifting station for wastewater without sewage with a GTF1200 wastewater pump.

The ready to plug in lifting station for wastewater without sewage is equipped with a submersible pump and a backflow preventer. The collection tank made of permanently resistant polymer (PE) has an open pump tank. One-handed closures enable easy removal of the integrated components. The system for installation in the floor slab is pre-assembled for final installation on site. The station is controlled by a user-friendly control unit, which is optionally integrated in the building management system using a potential-free contact or alarm and collective fault messages that can be output through a GSM interface.

### KESSEL technology kit consisting of:

- Pump with multi-vane vortex impeller for maximum operating safety
- Comfort control unit 230 V
- Optical alarm probe
- Pneumatic level measurement

Variant Type of system: Pump control:	Single unit Control unit
Dimensions Net weight: Gross weight: Packaging dimension: Packaging dimension: Packaging dimension:	14,8 kg 14,8 kg length width height
Pumping device Pump:	GTF 1200
