

## Ecoguss project drain, press. fl. DN 80, horiz., Variofix, Design cover

## Article information

Item no.: 48783.53 GTIN: 4026092053294 Price group: 40

## **Advantages**

- Scientifically confirmed sound protection effect
- Highest fire protection standards

## Description

The Ecoguss project drain is used for point drainage and is equipped with a pressure sealing flange as well as a removable odour trap, a lip seal and a temporary protective cover. The recyclable composite material Ecoguss meets the highest noise protection requirements, is temperature-resistant, resistant to aggressive media, and has a permanently corrosion-free surface. It is also briefly flammable from 100 to 400 degrees Celsius. The pressure sealing flange with bolts and screws made of stainless steel is used for the clamping or welding of bitumen and polymer bitumen sheets as well as for polymer and elastomer sealing sheets. Only the sealing sheets tested by the manufacturer may be used for watertight seals. The outlet socket is suitable for connection to SML cast iron pipes. Separate equipotential bonding is not necessary.

Variant	
System:	125
Waterproofing layer on the upper section:	Enclosed sealing collar to be glued (bd) according to DIN 18534
Waterproofing layer on the drain body:	Press sealing flange (suitable for creating watertight seals)
Sealing water height:	50 mm
General characteristics	
Standard:	EN 1253-1
Nominal size (DN):	80
Outer diameter (OD):	83 mm
Odour trap:	included
