

Upper section with slotted cover d: 218 mm, A/L15

Article information

Item no.: 67986 GTIN: 4026092085493 Price group: 10

Advantages

• Multiple combinations with suitable drain bodies

Description

The polymer upper section is suitable for LW 400 chamber systems and is equipped with a clamping ring and a hanger for sludge buckets. Continuously heightadjustable by 440 mm. If installed in roads, parking areas and comparable hardsurfaced traffic areas for trucks (Class D), the upper section must be underlaid on site with an approx. 15 cm thick reinforced supporting slab with at least 0.80 x 0.80 m made of B35 concrete. The exact design of the concrete slab must be calculated structurally according to the circumstances on site. A standard formwork and reinforcement drawing can be provided.

Variant System:	200
Dimensions Net weight: Gross weight: Diameter: Type of height adjustability: Packaging dimension: Packaging dimension: Packaging dimension:	4,4 kg 4,9 kg 218 mm vertically adjustable upper section length width height
Coverage features Cover material: Colour of cover: Load class:	Polymer black A 15 (EN 124) / L 15 (EN 1253-1)
