Article information

Item no.: 93015.05/D GTIN: Price group: 60

Advantages

- Odour-reduced disposal with the tank closed
- Low-maintenance operation

Description

Variant

The separator for greasy wastewater is suitable for free-standing set-up in frostprotected rooms and is manufactured without the need for metallic internal structural components. The collection tank made of permanently resistant polymer (PE) is equipped with an integrated sludge trap and has sloped sides in the base to promote fast and efficient disposal. Two odour-tight covers with quick-release closures make easy access possible for cleaning and maintenance work. A direct disposal pipe socket is available for reduced-odour manual disposal. After disposal, a maximum of 3 litres residual sludge volume is left in the tank. 20 year polyethylene warranty.
