The Doha Oasis is an extraordinary high-end mixed-use development in the heart of Musheireb, state of Qatar. The employer's philosophy envisions the complex to be of exceptional standards, redefining benchmarks in quality of design and construction. A centre with a 5-star luxury hotel, a retail complex, nineteen cinemas, an indoor amusement park and a high-quality residential complex was built on an area of 440,000 m². In such an innovative building, the water is stylishly drained away with over 112 Scada wall drains.

Selection Criteria

- Reliable drainage of the wastewater produced
- Individual and concealed design of the installations in the rooms by using tileable upper sections

Products Used In Reference Object

- Scada wall drain
