With Comwell Copenhagen Portside, the Danish hotel chain operates its first hotel in Copenhagen under its own name. The modern building is located in the new, fashionable district of Trælastholmen, which is surrounded by water on three sides and offers a great view over the Öresund. The hotel has 493 rooms, 18 conference rooms, a restaurant and a bar, and with its 4-star standard it leaves hardly anything to be desired.

### Selection Criteria

- Reliable drainage of the wastewater produced
- The disposal intervals can be lengthened by permanent monitoring using the SonicControl layer thickness measuring device
- 20-year guarantee on PE material for long-term investment security
- Fully-automatic and program-controlled disposal is possible

### Products Used In Reference Object
