On more than 117,000m², the impressive Westfield Mall of the Netherlands offers space for an extraordinary shopping and leisure experience. No matter if brand store, gastronomy, cinema palace, gallery or event centre – the Mall of the Netherlands has the right offer for every visitor. With two large NS 25 grease separators for underground installation, our products clean the waste water of the Westfield Mall.

Selection Criteria

- 20-year guarantee on PE material for long-term investment security
- Individual solutions for specific room/use requirements
- Fully-automatic and program-controlled disposal is possible
- Groundwater resistance of the products used

Products Used In Reference Object
